Life with cystic fibrosis is filled with waiting: waiting for the test to come back, for the clinic to call, for the infection to clear, for the cough to recede, for the lung function to improve, for the treatment to end, for peace to abide. And while we wait, we **HOPE** for the day when all with CF will move from waiting to living! Our motivation is strong and our call is clear. We want all affected by cystic fibrosis to have their lives wonderfully filled beyond the wait.

We are proud to be an important part of the progress being made toward this vision. Working alongside the CF community, the Foundation has achieved unparalleled advances in the treatment and care of cystic fibrosis. Today, the Foundation is pursuing a new frontier, exploring research that holds promise for a cure, while helping those with CF live their healthiest lives through comprehensive care and support.

Therapies focused on emerging scientific discoveries related to CFTR modulators, nonsense mutations, gene editing, and stem cell research are our best hope for curing CF. None of this has happened or will continue to happen without your support. With every step we take we are farther down the path to a cure and moving this great story of medicine forward.

Thank you for being a committed partner in this mission. We would love for you to be an important part of **Breath of Hope 2023** through sponsorship. We will host another incredible night of community for change on **Friday, June 9, 2023**. The story of CF is not science fiction; it is a story of undeterred unity, bold love and brave determination which is changing and saving lives and will ultimately lead to a vanquished disease.

Onward to a Cure,

Robbie Jackson + Ann Shearer
